Independent Auditor's Report

To the Board of Trustees
Lincoln Foundation

Opinion

We have audited the financial statements of Lincoln Foundation (the "Foundation"), which comprise the statements of financial position as of December 31, 2022 and 2021, and the related statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as of December 31, 2022 and 2021, and the results of its activities and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lincoln Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lincoln Foundation's ability to continue as a going concern for one year after the date that the financial statements are issued.

Independent Auditor's Report (Continued)

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lincoln Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lincoln Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements
Years Ended December 31, 2022 and 2021

Note A - Nature of Organization and Operations

Lincoln Foundation (the "Foundation") has enabled disadvantaged youth to overcome adversity through education since its inception by Berea College over 100 years ago. After the Civil War, black and white students attended Berea College together. In the early 1900's, this desegregated educational environment was outlawed by the efforts of a Kentucky legislator named Carl Day. The Day Law, as it was named, required separate education for black and white students, therefore outlawing the Berea model. In response to this unfortunate turn of events, the Berea College Board of Trustees established Lincoln Foundation in 1910 in Simpsonville, Kentucky (also known as Lincoln Ridge). The Trustees facilitated the purchase of a 444.4-acre parcel of land to be the site for a new school, named the Lincoln Institute in honor of President Abraham Lincoln.

Lincoln Foundation served as the fiscal agent for Lincoln Institute, a prominent boarding school for black students from 1912-1966. The Lincoln School, an integrated school for the gifted, was operated from 1966-1970. The Lincoln School closed in 1970 and in 1972 part of the campus was leased to the United States Department of Labor for the purpose of operating the Whitney M. Young, Jr. Job Corps Center. This vocational rehabilitation training center remains in operation and aligns with the historical legacy of the Lincoln Institute.

Today, Lincoln Foundation provides college preparatory and support programs for promising students from under-resourced households in the metro Louisville area. Students make a commitment to participate in Saturday morning and summer outside of school academic enrichment programs designed to enhance the in-school curriculum and strengthen college readiness. Emphasis is placed on closing the learning gap through student academic achievement irrespective of social or economic status leading to high school graduation and ultimately a college degree. The new College Transition Enrichment Program provides continued support, mentoring and coaching to Scholars through the four years of college. The goal of this new program is to help Scholars transition successfully for a successful freshman year in college and to matriculate towards earning a degree. Programming is also provided for parents and guardians to help them become better advocates for their students and assist in the college selection process. Lincoln Foundation serves over 400 students annually.

Recently, the Lincoln Foundation's signature program, the Whitney M. YOUNG Scholars Program® was expanded to serve students in grades 8 through the four years of college. The acronym YOUNG stands for Youth Organized to Understand New Goals. The 49 graduating Scholars in 2022 received scholarship awards of approximately \$4,469,613. Lincoln Foundation has partnered with colleges, universities and other organizations from across the region to provide unique summer learning experiences. These include Bellarmine University, University of Louisville, Berea College, University of Kentucky, and the Kentucky Science Center. These partnerships provided developmental and college readiness programs that include: The ACT Prep Program, The Digital Transformation Academy, Summer Institutes, Math and Science Programs, and the Summer Writing Program.

Note B - Summary of Significant Accounting Policies

1. Basis of Accounting: The financial statements of the Foundation have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the sole source of authoritative GAAP.
2. Accounting Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results could differ from those estimates.

Lincoln Foundation
Notes to Financial Statements (Continued)
Years Ended December 31, 2022 and 2021

Note B - Summary of Significant Accounting Policies (Continued)

3. Subsequent Events: Subsequent events for the Foundation have been considered through the date of the Independent Auditor's Report which represents the date which the financial statements were available to be issued.
4. Revenue Recognition: The Foundation recognizes contributions when cash, securities, or other assets, or an unconditional promise to give is received. The Foundation recognizes rental income in accordance with the specific agreement.

The Foundation records special events revenue equal to the fair value of the direct benefits to donors, and contribution income for the excess received when the event takes place.

5. Donor-imposed Restrictions: The Foundation records and reports its assets, liabilities, net assets, revenues, gains and losses, and other support based on the existence or absence of donor-imposed restrictions. The Foundation reports information regarding its financial position and activities according to the following net asset classifications:
 - *Net Assets Without Donor Restrictions*: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Foundation. These net assets may be used at the discretion of the Foundation's management and the board of directors. From time to time the Board designates a portion of these net assets for specific purposes which makes them unavailable for use at management's discretion.
 - *Net Assets with Donor Restrictions*: Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statements of activities.

6. Cash and Cash Equivalents: The Foundation considers all short-term investments with original maturities of three months or less when purchased, that are not designated for a specific purpose, to be cash equivalents. The Foundation maintains balances with its bank in excess of federally insured limits. Cash held for restricted purposes represents contributions received from donors restricted for a specific use.
7. Grants and Pledges Receivable: Grants and pledges receivable represent commitments from individuals and local organizations for educational program support and endowments. Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their future cash flows. The discounts on those amounts are computed using the risk-adjusted interest rates applicable to the years in which the promises are received. Amortization of the discounts is included in contribution revenue. No allowance for uncollectible pledges or grants has been included as management considers all amounts collectible.

Lincoln Foundation
Notes to Financial Statements (Continued)
Years Ended December 31, 2022 and 2021

Note B - Summary of Significant Accounting Policies (Continued)

8. Investments: Investments in marketable securities are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Net realized and unrealized gains and losses are reflected in the statements of activities and changes in net assets. Receipt of donated investments is recorded at the quoted market value of the investment at the time of donation. Investment fees are netted with investment income in the statement of activities. These fees totaled \$44,715 and \$47,256 for the years ended December 31, 2022 and 2021, respectively.

Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would result in material changes in the fair value of investments and net assets of the Foundation.

9. Other Assets: The Foundation elected, effective January 1, 2007, the option to finance unemployment insurance by reimbursing the State of Kentucky for benefits paid instead of paying unemployment insurance tax. The Foundation is a member of First Nonprofit and participates in an unemployment savings program. As such, the Foundation makes required periodic contributions to the savings program, which are held in a custodial account.
10. Property and Equipment: Assets acquired are stated at cost, or in the case of donated assets, at fair value on the date of donation. Depreciation is computed using primarily the straight-line method based on the estimated useful lives of the assets. Leasehold improvements are amortized over the lesser of the lease term or their estimated useful life. Depreciation expense was \$92,770 and \$83,611 for the years ended December 31, 2022 and 2021, respectively. The Foundation capitalizes property and equipment with a value of \$1,000 or greater. Lesser amounts are expensed.
11. Unearned Revenue: Unearned revenue primarily represents rental income received in advance.
12. Income Taxes: The Foundation is exempt from federal income taxes pursuant to Section 501(c)(3) of the Internal Revenue Code. The Foundation has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) of the Internal Revenue Code.

The Foundation recognizes uncertain income tax positions using the "more-likely-than-not" approach as defined in the ASC. No liability for uncertain tax positions has been recorded in the accompanying financial statements.

13. In-kind Contributions: The Foundation receives donated goods and services primarily in connection with partnering colleges and universities for Summer Institutes including room, board, teachers, and activities for Whitney M. YOUNG Scholars Program® as well as classroom space from local colleges and universities for the Educational Clinics during the school year. The summer Math and Science Program and Digital Transformation Academy receive classroom space from the University of Louisville. Digital Transformation Academy receives in-kind donations from the University of Louisville for professors who teach the classes and local corporations for the students to visit their companies on field trips. The amount of donated goods and services is recorded as revenue with the same amount included in expenses.

Note B - Summary of Significant Accounting Policies (Continued)

14. Functional Expenses: The costs of providing program and other activities have been summarized on a functional basis in the statements of activities and changes in net assets. The statements of functional expenses present expenses by function and natural classification. Expenses directly attributable to a specific functional area of the Foundation are reported as expenses of those functional areas while indirect costs that benefit multiple functional areas have been allocated among the various functional areas based on time and effort, usage, or square footage. Accordingly, certain costs have been allocated among program and supporting services benefited, with the most significant cost being salaries and benefits and depreciation.
15. Advertising Cost: Advertising cost are expensed as incurred. These expenses amounted to \$18,400 and \$32,504 for the years ended December 31, 2022 and 2021, respectively.
16. Recent Accounting Pronouncements: In June 2016, the FASB issued ASU 2016-13, *Financial Instruments-Credit Losses*. The standard requires a financial asset (including trade receivables) measured at amortized cost basis to be presented at the net amount expected to be collected. Thus, the income statement will reflect the measurement of credit losses for newly recognized financial assets as well as the expected increases or decreases of expected credit losses that have taken place during the period. This standard will be effective for the Foundation's year ending December 31, 2023. The Foundation is currently in the process of evaluating the impact of the adoption of this ASU on the financial statements.

In September 2020, the FASB issued Accounting Standards Update ("ASU") 2020-07, *Presentation and Disclosure by Not-for-Profit Entities for Contributed Nonfinancial Assets*. The standard requires contributed nonfinancial assets be shown separate from contributions of cash and other financial assets and provides qualitative disclosure regarding valuation techniques, categories of contributed nonfinancial assets, and their use. This standard was adopted for the Foundation's year ending December 31, 2022. There was no material impact on the Foundation's financial statements as a result of adoption of this new standard.

In February 2016, the FASB issued ASU Update No. 2016-02, *Leases*, to improve financial reporting with respect to leasing transactions. The standard requires all leases with lease terms over 12 months to be capitalized as a right-of-use asset and lease liability on the balance sheet at the date of lease commencement. Leases will be classified as either financing or operating. This distinction will be relevant for the pattern of expense recognition in the income statement. This standard was adopted for the Foundation's year ending December 31, 2022.

Effective January 1, 2022, the Foundation adopted ASU 2016-02 and all related amendments using the optional transition method, which allows entities to apply the guidance at the adoption date and recognize a cumulative effect adjustment to the opening balance of net assets, if any, in the period of adoption. The Foundation did not have any leases that require recognition of a ROU asset and lease liability in the statement of financial position. Accordingly, the adoption did not have any effect on the financial statements and no adjustments to the opening balance of net assets was necessary.

Less than 1 year	\$ 190,000
1 - 5 years	<u>100,000</u>
	<u><u>\$ 290,000</u></u>

Note E - Beneficial Interest in Charitable Trust

The Foundation is a beneficiary of a perpetual trust in memory of Charles Haggard in appreciation of what the Foundation meant to him in his lifetime. The investments within the trust are recorded on the Foundation's financial statements at fair value. These investments are permanently restricted assets subject to the restriction of the donor with principal and any gains or losses invested in perpetuity and only the income to be distributed to the Foundation based on the Foundation's interest in the trust.

Under the Charles Haggard Trust, the Foundation receives 25% of the annual income of the trust. The Foundation records its beneficial interest in this trust at the present value of the estimated future cash flows which approximates 25% of the fair value of the trust. Distributions from the trust totaled \$6,908 and \$0 for the years ended December 31, 2022 and 2021.

Note F - Fair Value Measurements

FASB ASC defines fair value, provides a framework for measuring fair value, and expands disclosures required for fair value measurements. FASB ASC also establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels. These levels, in order of highest to lowest priority are described below:

- Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities.
- Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3: Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Level 3 includes values determined using pricing models, discounted cash flow methodologies, or similar techniques reflecting the Foundation's own assumptions.

Following is a description of the valuation methodologies for assets measured at fair value:

Money Market Fund: Valued using cost which approximates fair value.

Mutual Funds and Exchange Traded Funds: Valued at the closing price reported on the active market in which the individual security is traded.

Beneficial Interest in Charitable Trust: The underlying assets of the fund are valued at the closing price reported on the active market on which the individual securities are traded. The fund is valued at the net asset value of the underlying assets.

Note F - Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2022 and 2021.

The following tables set forth by level, within the fair value hierarchy, the Foundation's assets at fair value as of December 31, 2022:

	Investments at fair value as of December 31, 2022

Note G - Property and Equipment

Property and equipment consist of the following at December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>
Land and improvements *	\$ 821,332	\$ 821,332
Buildings and improvements	3,122,320	3,099,332

Less accumulated depreciation	<u>2,107,746</u>	<u>2,164,818</u>
	<u>\$ 2,069,793</u>	<u>\$ 2,132,963</u>

*Included in land and improvements noted above is a 408-acre parcel of land owned by the Foundation located in Simpsonville Kentucky. This parcel of land was originally 444.4 acres but was reduced to 408.4 acres due to eminent domain from the construction of Interstate 64. The campus ownership was deeded to the Commonwealth of Kentucky in 1946 and title transferred back to Lincoln Foundation in 1972. Consistent with the Foundation's accounting policy (as described in Note B), this parcel of land is valued at fair value at the time of the donation which was \$256,639. It is the Foundation's understanding that the current fair value is significantly greater than the amount reflected in the financial statements.

Note H - Debt

The Foundation has a note payable of \$548,500 for the purpose of refinancing existing debt. Monthly installment payments of \$3,487, including interest at 4.49%, commenced August 2019 with a balloon payment of \$455,840 due in June 2024. The debt was refinanced in June 2022, with monthly installment payments of \$3,942 including interest at 5.05%, with a balloon payment of \$212,220 due June 2032. The note payable is secured by liens on real estate. The note payable has an outstanding balance at December 31, 2022 and 2021 of \$483,377 and \$504,024, respectively.

The Foundation financed a new roof for the Bishop Lane property in the amount of \$30,000. The interest rate on the note is based on the Wall Street Prime Rate with a floor of 3% and interest only payments due monthly with a balloon payment at maturity on October 7, 2024. The debt is secured by liens on real estate. The note payable has an outstanding balance at December 31, 2022 of \$18,571.

Note I - Endowment Funds

The Foundation's endowment consists of individual funds established for a variety of purposes. Its endowment includes both donor restricted funds and a fund designated by the board of trustees to function as an endowment. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the board of trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Foundation classifies net assets restricted in perpetuity as the original value of gifts donated to the endowment and accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment that is not classified as restricted in perpetuity is classified as restricted by purpose or time until appropriated for expenditure by the Foundation. The Foundation considers the fund to be underwater if the fair value of the fund is less than the sum of (a) the original value of the initial and subsequent gift amounts donated to the fund and (b) any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument.

At December 31, 2022, the Foundation had one fund with an original endowment gift amount of \$268,359 and a fair value of \$258,684 for a deficiency of \$9,676. There were no endowment funds with deficiencies at December 31, 2021.

The investment objectives of the endowment funds are (1) to assure a relatively stable and predictable earnings stream to meet the spending policy, which will, over time, increase at a rate that keeps pace with inflation, and (2) to optimize investment returns such that the total returns (income plus appreciation in market value) equals or exceeds the blended or balanced index, which mirrors the allocation of the portfolio. This objective is measured quarterly over one, three, and five-year periods, with the goal to meet or exceed the benchmark over a multi-year period.

To achieve its investment objective, the Foundation's endowment funds are allocated among several asset classes. These asset classes may include domestic equity, international equity, fixed income securities, and cash/short-term.

The Foundation uses a total return approach in calculating distributions. The total return ranges from 3% to 7% of the unrestricted endowment balance at the discretion of the Finance Committee. New investment distributions are recalculated on a quarterly basis. The Foundation uses a rolling three-year average of the 12 previous quarterly market values.

The Charles Haggard Trust is held and administered by an independent trustee (see Note E). The investment and distribution policies for this trust are determined by the independent trustee, not the Foundation.

The Foundation had no borrowings from the Endowment Fund at December 31, 2022 or December 31, 2021.

Net investment income, as well as realized and unrealized gains and losses, attributable to the Whitney M. YOUNG Scholars Program® Endowment are restricted by purpose for the advancement of the Whitney M. YOUNG Scholars® Program. Net investment income, as well as realized and unrealized gains and losses, attributable to the Dr. Samuel Robinson Scholarship Endowment are restricted for a scholarship fund named in the honor of Dr. Samuel Robinson, President Emeritus. Net investment income, as well as realized and unrealized gains and losses, attributable to the J. Graham Brown Foundation Challenge Endowment, the Foundation's match of the Brown Challenge, and Mae Street Kidd Scholarship Endowment are restricted for scholarships and education. Net investment income, including realized and unrealized gains and losses, attributable to the Whitney M. Young Memorial Endowment are restricted for the maintenance and upkeep of the birthplace of Whitney M. Young, Jr. Birthplace. Distributions of income related to the Foundation's Beneficial Interest in Charitable Trust are available for operations.

Note L - Concentrations

Approximately 50% of the Foundation contributions were from two donors in 2022. One hundred percent of the Foundation's grants and pledges receivable at December 31, 2022 are from three donors.

Approximately 38% of the Foundation contributions were from two donors in 2021. Approximately 97% of the Foundation's grants and pledges receivable at December 31, 2021 are from two donors.

Note M - Retirement Plan

A Savings Incentive Match Plan for Employees Individual Retirement Account ("SIMPLE IRA") is available to all regular, full-time employees. Eligible employees may contribute up to the maximum allowed by the Internal Revenue Service. The Foundation will match employee contributions up to 3% of eligible compensation. The Foundation's matching contributions for the years ended December 31, 2022 and 2021, were \$19,588 and \$19,644, respectively.

Note N - Deferred Compensation Plans

The Foundation has a deferred compensation plan set up by the Board of Trustees for selected key management employees. The Foundation designated approximately \$63,448 of unrestricted net assets to fund these payments.

One former employee's deferred compensation was paid out in total, approximately \$118,000 during the year ended December 31, 2021.

During 2007, the Foundation began additional non-qualified tax deferred compensation plans for key employees. The contributions from the Foundation total \$104,870 over fifteen years, of which \$16,000 was contributed in 2022 and \$19,500 was contributed in 2021. Amounts related to the non-qualified tax-deferred compensation plans are carried at fair value and are included in investments and deferred compensation liability on the statements of financial position.

Note O - Rental Income

The following property is being leased from the Foundation as indicated:

Whitney M. Young, Jr. Job Corps Center Campus

On January 1, 1985, the Foundation entered into a lease with the United States Department of Labor ("DOL") for a portion of the Lincoln Institute property located in Simpsonville, Kentucky. On February 12, 2003, a new lease was signed, retroactive to January 1, 2001, for the use of 54.4 acres with a one-year term and an automatic renewal for forty-nine (49) years. Over the life of the lease, increases in the annual lease payments are based upon the change in the Consumer Price Index ("CPI"). In addition to the annual CPI increase, there is a lease provision for the rental income to be renegotiated every five years based on appraised fair market rent for the leased premises. A renegotiated rental increase was entered into effective January 1, 2012, which increased the basic rent per annum from the original lease of \$323,000 to \$350,000. During the years ended December 31, 2022 and 2021, \$469,218 and \$462,740, was received in annual rental income.

Penrod Land Rental Income

In December 1994, the Foundation signed an agreement with a lumber company to lease six acres of land at an annual rental of \$5,750. The amount of the rent increases every five years based upon the Chicago Consumer Price Index. This lease is for land used by Penrod for lumber storage. In 2009, the lease was amended to reflect an additional 1.4 acres that Penrod had encroached upon since 2005. Prior the expiration of the agreement in 2019, Penrod renewed the lease for an additional five-year term. Annual rental income received was \$11,509 for both the years ended December 31, 2022 and 2021.

AT&T Land Rental Income

In 2012, the Foundation renewed a five-year renewable agreement with a phone company to lease approximately 6,400 square feet of land, together with a right of way for access to the parcel, at an annual rental of \$7,935. The agreement may be renewed for one additional five-year term, and thereafter on an annual basis. In January of 2020, the lease was amended adding ten five-year renewable terms at an annual rent of \$24,000 which commenced on August 1, 2020. The amount of rent increases by three percent annually. Upon expiration of the renewable terms, the agreement automatically renews on an annual basis. The amounts received in 2022 and 2021 were \$25,780 and \$25,029, respectively. This lease is for land used by AT&T for a communications tower.

Agricultural Rental Income

In February 2009, the Foundation signed a three-year agreement with a farmer to lease two hundred acres of land for single cropped fields and twenty-five acres of land for double cropped fields. During 2015, the lease was renewed for 190.50 acres, single cropped, for an additional five years at \$28,575 per annum for single cropped fields. The last year of the lease was renegotiated to \$20,000 per annum. During 2019, the lease was renewed for 160.29 acres, single cropped, for an additional five years at \$22,000 per annum for single cropped fields. The lease includes a two-year option from 2024 - 2026 at \$25,600 per annum. During the years ended December 31, 2022 and 2021, \$22,000 was received in rental income.

Note Q - In-Kind Contributions

Donated services, supplies and property are shown as gifts, valued at their estimated fair value at the date of receipt. Donated services are recognized as contributions if the services (a) create or enhance nonfinancial assets or (b) required specialized skills, are performed by people with those skills, and would otherwise be purchased by the Foundation. The Foundation recognizes in-kind contribution revenue and a corresponding expense in an amount approximating the estimated fair value at the time of donation. A number of volunteers have given significant amounts of their time for the operations of the Foundation throughout the year that are not recognized as contributions in the financial statements since the recognition criteria were not met.

Note Q - In-Kind Contributions (Continued)

The Foundation received the following contributions of nonfinancial assets as of December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>
Facilities use	\$ 45,641	\$ 43,107
Services, programs and instructors	30,282	7,533

Supplies	6,376	5,265
Other	5,545	1,096
	<u>\$ 107,045</u>	<u>\$ 63,216</u>

The Foundation receives a variety of donated goods and services related to the support of the Foundations mission. Facilities use and services are valued at the cost the facility use or service would have cost the Foundation if they had paid for it. Materials, supplies, and other are valued at the cost the donor paid for the items, for new items, and an estimated fair value for used items. There were no donor-imposed restrictions associated with donated goods.

Note R - Educational Programs

The Foundation's educational programs' expenses for the years ended December 31, 2022 and 2021 are as follows:

Note S - Asset Retirement Obligation

ASC requires that an asset retirement obligation ("ARO") associated with the retirement of a tangible long-lived asset be recognized as a liability in the period in which it is incurred or becomes determinable (as defined by the standard) even when the timing and/or method of settlement may be conditional on a future event. The Foundation's conditional AROs primarily relate to asbestos contained in buildings that the Foundation owns on the Whitney M. Young, Jr. Job Corps Center campus. Environmental regulations exist that require the Foundation to handle and dispose of asbestos in a special manner if a building undergoes major renovations or is demolished.

No liability has been recorded in relation to the AROs because the fair value cannot be reasonably determined. Much of the asbestos in the Foundation's facilities has been removed but absent any plans to do major renovation to or demolish the facilities there is an indeterminate settlement date for the asset retirement obligation because the range of time over which the Foundation may settle the obligation is unknown or cannot be estimated.
